

Please, please, please do not take any actions that would weaken Indiana's phone privacy law. This law has accomplished exactly what it was intended to do -- provide my wife and I blessed relief from the near nightly interruption of our meals and quiet time from telemarketers. We can't think of another action on the part of the state that has had such a positive impact on our lives. Please don't put us back at the mercy of telemarketers. Thanks.
